

The Community Fund

When a community comes together good things happen. When a Community Fund builds and the broader community is supported even better things happen. When a community and a charity with a permanent fund for the community come together, the best things happen. That's what the SCF Community Fund does. The fund has been working for the community since 1983 and is the cornerstone of all the work SCF does.

Donating to the fund isn't just for rich people. Every donation of every size makes a difference right now, next week, next year... and so on. If you were to give SCF 2 dollars a week (the cost of one medium cup of coffee at a favorite Canadian restaurant) you'd be able help meet community needs. That's not a lot to make the community better.

With donations to the Community Fund we've invested in other organizations doing good things for our community. The fund makes grants of about \$25,000 dollars each year in projects that will make a difference right now.
